Fifty Persons Killed in the Recent Affray Between Moslems and Americans at Erzeroum -Foreign Notes.

By Telegraph to The Times. BERLIN, July 1 .- By Cable and Associated Press.] Chancellor Caprivi and Dr. Krauel for Germany, and Sir E. B. Malet and Sir Percy Anderson for England, have signed the Anglo-

German agreement. COLOGNE, July 1 .- A meeting of the Colonial Society was held today. Baron Wissmann, who was expected to be present, was absent, being ill. Many addresses were made. Resolutions were adopted thanking Baron Wissmann, the government and the Reichstag for their efforts for the sup-pression of slavery; regretting the conclusion of the Anglo-German agree-ment, and expressing hope that the government would henceforth main-tain a firm and resolute colonial policy.

The meeting concluded with cheers for the Kaiser. Berlin, July 1.—Baron Wissmann is suffering from feverishness and insomnia. His illness compelled him to

abandon his engagements.

London, July 1.—The Chronicle's Berlin correspondence declares that Wissmann's illness is a pretext, as the Baron received a hint that his presence at the meeting at Cologne would embared. BRITISH MERCHANTS PROTEST.

D AND UNFUR-LONDON, July 1 .- At a meeting o ondon merchants it was resolved to send a deputation to Salisbury to point out the serious results of the extension of German territory north of Damara-land and the establishment of a Ger-man barrier between Bechuaniand and he north, also the necessity of main aining English influence in Madagas-HWESTERN, 108 EXCITED DEPUTIES.

Eighth and Ninth. 2 Further Accounts of the Recent Riot at Erzeroum. CONSTANTINOPLE, July 1.—[By Cable and Associated Press.] Advices from Erzeroum say that fifty persons lost their lives in the recent riot in that city. When the news of the fray between Turkish soldiers and Armenians spread, the whole Moslem population turned out and the wildest disorder prevailed. The windows of the British and French Consulates were smashed by the infuriated Musselmans. Business is now at a standstill. nians spread, the whole Moslem population turned out and the wildest disorder prevailed. LOOKING AFTER HIS FENCES

B.: "My God! look at them steers!"

The press here calls on the government to explain what position it intends to take in the matter.

AN EXILE'S OPPORTUNITY.

SAN FRANCISCO, July 1.—Gen. Fablo Moran, formerly commander of a division in the army of San Salvador, who was forced to leave his country at the time of the election of the late President Menendez and take refuge in San Francisco, where he has been living since, will sail from a here on Thursday for San Salvador. Gen. Moran held a number of positions of trust in his native country, among them being that of Minister of War. In 1886 he was the Republican candidate for President of the republic, but was defeated by Gen. Menendez. Just after the latter's election he is-Credit Foncier matter. The Minister of Finance, Rouvier, replying to an interpollation, said the government had no right to limit the advertising of the Credit Foncier, but advised that it be curtailed. He added that the position of the Credit Foncier was excellent.

After several other witnesses as to Mrs. Reynolds's reputation testified that it was good, Judge Clark called the boys over to him, and they told him that they loved Mrs. Reynolds and wanted to stay with her.

The Court decided to allow the little fellows to remain with their fostermother, Mrs. Reynolds. He could see no necessity for a change at this time, but allowed the mother to see them at certain times, cautioning Mrs. Reynolds against attempting to alienate their affections from the mother. He would regard the children as under the protection of the Court, and if at any time it should appear that they were not being reared properly, he might modify his order.

Preparations for the Biennial Con-clave at Milwaukee. The sixteenth biennial session of the Supreme Lodge of Knights of Pythias Supreme Lodge or Knights or Tytune will meet in Milwaukee, Wis., during the week of July 7th-16th, and prom-ises to be one of the largest gatherings of the kind ever held in the country,

of the kind ever held in the country, it being estimated that fully fifteen thousand members of the order will be present at that time.

Tuesday, July 8th, will be the great parade day, when 15,000 Uniform Knights and 10,000 ununiformed members of the order will parade the principal streets of the city, starting at p.m. In the morning at 10 o'clock, at the Exposition building, the Supreme Lodge will be given a reception, at which addresses of welcome will be made on behalf of the State of Wisconsin by Gov. W. D. Hoard; on behalf of the city of Milwaukee by Mayor George W. Peck; and on behalf of the Knights of Fythias order in the State by Grade Chancellor F. B. Hoskins of Franklades.

Lac. Supreme Chancellor Ward and others will make proper responses.

The competitive prize drills for divisions of the Uniform Rank will commence at Cold Spring Park (the State Fair Grounds) at 9 o'clock Wednesday morning, and will be continued during the week, the 'prizes offered aggregating \$4800 in value. On Wednesday afternoon the entire Pythian army will be drawn up in line at a grand field review, which will be the finest military display made in the United States since the war. A big prize band concert will be given Wednesday evening at Schlitz Park, in which \$800 worth of prizes will be competed for.

they did not believe that there would be any opposition.

The chairman then asked what was the further pleasure of the meeting, when short speeches were made by Messrs. Van Dusen, Register, Mesmer and C. N. Earl, urging that the committee should first perfect its organization as a working body, and that a definite plan of action be formulated, so that it might know what it was doing.

so that it might know what it was doing.

Dr. Sinsabaugh suggested that as a preliminary measure, it would be a good thing to revise the membership of the committee, and if it was found that it had made a mistake in putting on men that would not work that they should be removed, and their places filled by others who would take an interest in the movement.

This suggestion caused considerable debate, some of those present thinking that it might be too much like taking snap judgment, and, finally, on the suggestion of Mr. Judan, the secretary was instructed to send a communication to each one of the absontees, asking that they answer in writing whether they desired to remain on the committee or not and attend the meetings, the secretary to report at the next meeting, when all vacancies will be filled.

Dr. Sinsabaugh moved thes petitions

at the next meeting.
On motion of Mr. Van Doren, the chair was authorized to appoint a committee of five to formulate a general plan of action, to report at the next

meeting.

The chair stated that as this was a very important matter, he would have to take a little time for consideration, and there being no further business, the committee adjourned to meet at the same time and place on Tuesday next.

Chairman Wells afterward appointed the following gentlemen as the committee on organization and formulating a plan of action, who will meet in the office of Mr. Wells, at the corner of Temple and New High streets, next Saturday afternoon—at 3 o'clock: Messrs. E. E. Galbreth, C. N. Earl, Raiph E. Hoyt, James Burdette and H. Sinsabaugh.

Committees Appointed to Draw Up
Petitions and Formulate a
General Plan of Action—
A Good Start Made.

The first meeting of the executive
committee of twenty-seven, appointed at the recent mass meeting in Temperance Temple, on the water question,
was held at the office of C. M. Wells, at the corner of New High and Temple
streets, resterday afternoon. The meeting had been called for 3 o'clock, and shortly after that hour a quorum of the
committee put in an appearance, when Secretary Judah called the body to
order, briefly stating the obect.

On motion, C. M. Wells was unanimously elected permanent chairman and N. J. Judah secretary, when the
roll was called, and the following members answered to their names:
C. M. Wells, C. E. de Camp, Dr. H.
Sinsabaugh, ex-Mayor W. H. Workman, B. A. Breakey, John Vandam,
H. C. Register, F. W. Tyler, J. T.
Sheward, E. E. Galbreth, N. J. Judah,
Ralph E. Hoyt, C. N. Earl, James Burdette, Joe Mesmer, J. N. Van Doren,
O. W. Churchill and E. M. Hamilton,
After some talk, Dr. Sinsabaugh
asked for information as to the attitude of the press on the movement for the city owning the water works, when Chairman Wells and others stated that, so far as they had been able to ascertain, the sentiment was favorable, and they did not believe that there would be any opposition.

The chairman then asked what was the further pleasure of the meeting, when short speeches were made by Messrs. Van Dusen, Register, Mesmer and Q. N. Earl, urging that the committee should first perfect its organization as a working body, and that a definite plan of action be formulated, so that it might know what it was doing.

Dr. Sinsabaugh suggested that as a preliminary measure, it would be an preliminary measure, it would be as preliminary measure, it would

ings, the secretary to report at the next meeting, when all vacancies will be filled.

Dr. Sinsabaugh moved that petitions be circulated for the signatures of all those who favored the idea of the city owning and operating its own system. The Doctor said that he had yet to hear of the first man who was opposed to it, and be thought it would be a good thing to strengthen the backbons in the positions are successed in the committeement from each ward.

This motion gave rise to a debate that continued for something over an hour, and speeches were made by almost every member of the committee. The feeling was unanimous that the city should own the water works and operate them, and the only question was how it could best be done. It was conceded by all that it was a Herculean task that they had cut out for themselves, but all were confident that success would crown their efforts in the end. Mr. Sheward was especially severe in his denunciation of the Wicks company for its treatment of residents on the hills, and Mr. Burdette laid some valuable facts and figures before the meeting.

Finally, to bring matters to a focus, Ralph E. Hoyt moved that a sub-committee of three be appointed to draft a suitable petition for circulation, which motion finally prevailed, and the chair appointed the following as such committee: C. M. Wells, H. Sinsabaugh, Ralph E. Hoyt and J. T. Sheward. The committee is to report at the next meeting.

THE NORTHERN BOOMLAND.

Many of our citizens have gone to the Puget Sound boom centers during the past year, and many others are looking that way with longing eyes. From all that can be learned these lat-ter will do well to wait a little longer before venturing into the norther

speculative whirlpool. A citizen of San José, who has just returned from a six weeks' trip through Oregon, Washington and British Coumbia, gives the Times of that city a graphic description of the condition of affairs up there. Reason, he declares, ceases after leaving Portland, and one then enters a country which seems to be under a spell of wild, crazy specula-

be under a spell of wild, crazy speculation. He says:

Those people are living in unnatural excitement, boistering one another up with fictitious values. Take Colfax, Spokane Falls, Tacoma or Seattle. Every one of those places is building itself poor. Building after building of granite, iron, stone or marble, ive, six, eight and ten stories, are going up, without a dollar in sight. You may smile, but I looked "behind the scenes" while there and from friends well-posted on the situation I learned the truth of what I suspected. Money is extremely tight in that country. The best evidence of it is the fact that the banks there charge all the way from fifteen to twenty per cent, and the security has to be "gilt edged." Building is being done with paper, and the craze for building is so great that men are paying as high as two and three per cent. Building is the railroad a new town is being started, with extravagant buildings. The country is already overcrowed with laborers and it has resulted in an abundance of cheap labor. The country is full of people going and coming, and botels, railroads and steamboats are the only institutions which are actually making money. Take my word for it, the reaction, when it comes, will be far more disastrous than the boom in Southern California ever was.

As to trade, this traveler says he found nothing but "liscking trading".

We all know, from recent experience, what the result of this will be. Times may be a little hard here at present, but they will be much harder on Puget Sound before long. Then, again, they lack the exhilarating sunshine of Southern California to dispel their gloom up there. Certainly, those who leave Los Angeles just now for DAILY TIMES-\$10 in the city or \$9 the northern boomland will make a

The editor of our etiquette department informs us that such is the universal custom in Europe, but in America, where almost everybody knows everybody else, the ustom is generally abrogated, owing to the wear and tear on hats, and s nod or a wave of the hand is substi-tuted. In some backwoods settlements it is the custom to administer a hearty slap on the back, but this is strictly provincial, and might be resented in a metropolis like Los Angeles. A CORRESPONDENT of Bradstreet's calls attention to the official statistics of losses among cattle and sheep dur-ing last winter as indicating a terrible amount of inhumanity among those who own and are supposed to care for live stock on the plains. In five States and Territories the losses attributed to "exposure" were 12 to 15 per cent. of cattle and 17 to 27; per cent, in sheep. The total for all was about 3,475,000 head. Range-owners practically doom great numbers of these miserable animals to death each winter, as they know well that many must be frozen or starved unless food be provided for the time the ground is covered deeply with snow. A correspondent suggests an improvement in the old-time method of making soap. The old plan of throwing loose scraps of grease together through the winter, and only trying to make soap of them after they acquire an intolerable stench, is entirely unnecessary. Provide a ball of potash and place it in some vessel containing enough water to dissolve it, and cover the soap grease as it is added from time to time. Soap grease thus treated will keep sweet, and the soap made from it will be much less dangerous to handle.

The matter was ted at police headquarters, but a ent watch failed to discover any to the thieves. Yesterday afterhowever, a telephone message received at the station that the lew and Detectives Aubie, Bowlew and Bosqui started on a dead run for the winery. Arriving at the piace, they found a 16-year-old boy, who gave the name of Abraham Dooley, and a man named John Donlan, in a happy state of intextaction and with several bottles of wine in their possession, trying to get out of an opening in the wall, but were mable to make it, and were gathered in and taken to the police station, where they were locked up, charged with burglary.

It appears that Dooley and Donlan have been getting into the winery through this opening for some time, which they carefully concealed when they came out. Yesterday, however, the weather being very warm, and the hisves very thirsty, they could not year that they became so drunk that they could not get out, and made such a racket in tumbling about that the clerks up stairs learnt them and gave the alarm, when rs had been caught in the buildand Detectives Auble, Bow-

OUR NEIGHBORS.

POMONA, June 29.—(Correspondence of The Times.) The marriage of Henry Gullek and Miss Clara Shaw was celebrated at the home of the bride's father, in this place, on Thurswas celebrated at the home of the bride's father, in this place, on Thursday afternoon. Owing to a recent death in the family of the bride, the marriage was a quiet one, and no one was present but the immediate relatives of the bridal couple. Rev. L. H. Frary performed the marriage ceremony at high noon, and a little later, when refreshments had been served, the bride and groom departed upon a short tour to Coronado and Santa Barbara. Mr. Gulick is the junior member of the Summit Nurseries in Florida, but has made his home in Pomona for about a year. The bride is a daughter of Hon. William C. Shaw, and a cousin of United States Senator Quay.

The year at the Pomona Congregational College, just closed for the summer vacation, has been unusually prosperous and far beyond the expectations of the trustees and faculty of that institution. The library has been increased two-fold, the college building has been furnished with new equipment and apparatus, and the number of pupils has been about one hundred. There is every reason to believe that the number of pupils at the college will be at least one hundred and thirty next year, and considering that the Pomona college is but 2 years old, that is doing remarkably well.

The case of the Pomona Land and Water Company against Rev. Henry M. Loud, involving about \$94,000 for arrearages on land contracts, interest, costs of trial, etc., has been appealed to the United States Supreme Court. The company has thus far had two judicial decisions in its favor.

MANY of the store windows are decked out in Fourth-of-July stire. The decorations on that day ought to be general. Let every citizen take pride in ornamenting his residence and place of business with flags and bunting.

Thanks to the generosity of some of our citizens the grounds about the several public school buildings will be beautified by handsome floral ornamentations. Mayor Lukens has donated a lot of illy bulbs, and J. S. Howard a number of roses. Who will be the next?

"Looking Backward' is beginning to bear fruit," says the Philadelphia Times. "Twelve young ladies of Indianapolis, employed in stores and offices, have rented a suite of twelve rooms, and are living on the Bellamy plan. Each pays into the treasury \$3 per week, and a cook is employed to prepare meals. In addition each is assessed 25 cents for a contingent fund, which is held to meet unusual expenses. The young ladies room in couples, and each week two of them are appointed purveyors. The only time they are all together is at supper, but they are all together is at supper, but they are contented and enjoy their way of living." The same plan of living has been followed in Pasadena for some time by a party of bachelors, who rent a house on Euclid avenue. Each member of the club pays a weekly assessment equal to his share of the living expenses. Nationalism is growing here as elsewhere.

BREAKFAST TABLE TALK.

The lineman of the electric light company turns out a large and assorted collection of bugs from the test lampiglobes when he makes his two rounds. Throughout the early night the insects are attracted by the glare of the lamps, and tumble into the heavy glass globes in reckless contained. Some are killed, some are attracted by the glare of the lamps, and tumble into the heavy glass globes in reckless contained. Some are killed, some are attracted by the glare of the lamps, and tumble into the heavy glass globes in reckless contained merely, and in the morning the lineman has a pint or so to empty on the street beneath each lamp. In the East beautiful butterflies are frequently found in the globes, but here the bugs are of common variety and non-marketable.

Pasadens purchasers would comme themselves as exclusively as possible to the local markets. Home trade themselves as exclusively as possible to the local markets. Home trade twould thus be agreeably stimulated, and more of our merchants be able to earn a comfortable living."

To an inquiring correspondent we would reply that the custom of lifting the hat had its origin during the age of chivalry. Knights never appeared in company except in full armor, unless in an assembly of friends, where it was customary to remove the helmet, which signified that the knight was safe in the presence of his friends.

The entries for the races are given today. Those who profess to be judges of good horse flesh can now exercise their talents in predicting the winners.

Why They Will Not Be Here.
At the request of our officer of the
Markham Guards the explanation of this organization's going to Los Angeles on Friday is appended, for the benefit of those who are inclined to benefit of those who are inclined to criticise the company's leaving town on that day. The company postponed action on invitation to participate in the Los Angeles exercises for some time, anticipating some sort of a celebration here in the morning. Finally orders came from regimental head-quarters, commanding the company to join the rest of the regiment in Los Angeles. Hence the men go not from choice, but necessity. Their expenses are all provided for. The company will take part in the parade here Friday morning, and leave at 9:23 o'clock, returning on a special train at night.

A Good Chicken Story-What "Cli-mate" is Doing for Hens. HONBY STATION (Los Angeles County, Cal.,) June 28.—To the Editor

HONBY STATION (Los Angeles County, Cal.,) June 23.—To the Editor of THE TIMES-MIRROR. Your edition of May 24, 1890, records in a somewhat flattering manner the fecundity of Alhambra ranch chickens. Very good. On the evening of October 28th last I set my old black hen, common barnyard stock. On the 18th of November she came off with eight chicks. All of the pullets, six in number, were laying before 6 moaths and 15 days old, the first laying at 5 months and 5 days. After a few weeks laying one evinced the idea of setting. After a probation of six days, I gave her eleven eggs. On the 9th day of the present month (June) she came off with nine chicks, her age being exactly 6 months and 21 days. The fact proven that she was in earnest about the set, does not justice upon the part of the young mother claim an equitable right in the six days, probation, making her age at time of hatching 6 months 15 days, instead of 21 days? Judgment. Respectfully, WALTER W.VARNER, Thompson P.O.

Don't Forget the "Sozodont," But use it regularly after every meal. It imparts a pleasant flavor to the mouth, changes offensive secretions into healthful, invigorates the gums, and cleanses the interstices of the teeth. Like old Hercules, it purifies the Augean stables which some have in their mouth.

Medicat. CATARRH, M. HILTON WILLIAMS, M.D. M. C., P. S. O., By his Medicated Inhalations and Compour Oxygen Treatment.

Probably no system of practice ever em-plored has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh. Throat Diseases, Brenchitis, Asthma and Consumption. CATABRE.

Asthma and Consumption.

C A T A R R H.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract fresh cold. Indeed he declares that he is scarcely free from one cold before he taxes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always secens to settle in the head of always secens to settle in the Attimes many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear and he learns to his herror, that instead of recovery from the disease, it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometimes felt in treading, speaking or singing; hearseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some foreign substance, as, for instance, a hair, obstructed the threat; the breath lessens on a little sound in clearing the process. A popular sound in clearing the process and propers and the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the press of the disease may have been slow, and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years, and has not seemed to become much worse, and trusts that he will "by and by" recover. But this delusion is the grand error which has peopled our cemeteries with consumptive many and an another of catarrh end finally in more properly treated. Eastern visitors and inconsumption.

Every case of catarrh is enrable, when properly treated. Eastern visitors and invalids should avail themselves of the opportusity of being cured before they return home.
